*our community club...*

## The New Green

The new green is nearly ready for play.

The Bowls Committee and Coaching panel have endorsed a decision that means **players that dump their bowl will not be permitted to play** on the new green. This is the advice from the manufacturer and installer.

There are **two** things you can do about this.

In the next couple of weeks we will provide a coaching and information session focused on bowling with an arm. This will include how to choose the correct arm for you. The session will be run by current Australian representative, Lee Wesley, who has generously donated his time and extensive expertise.

If you need someone to check whether your delivery might be a problem and/or need advice contact one of our Club Coaches ASAP.
